

Introducing ...

NOVA

E-LEARNING

Your Climate Education Journey Begins Here

With **Avon Energy**.

WHO ARE WE?

At Avon Energy we believe that effective climate action starts with education, that's why we've developed Nova e-learning.

As part of our wider consultancy, we work with organisations to identify, understand, and take action on their carbon footprint.

WHY CHOOSE OUR CLIMATE COURSES?

We offer accredited climate courses ranging from introductory to advanced level depending on the needs of your organisation.

We are here to guide you on your journey to understanding what Climate Change is and how we can change mindsets to enable a sustainable future.

WHAT COURSES ARE AVAILABLE?

E-learning courses:

Interactive E-learning courses with voice overs and quizzes. Choose between our Nova Introduction to Climate Change course, or a bespoke E-learning tailored to your organisation.

In person/virtual Carbon Literacy course:

A social way to learn in person or online.

Learners will receive an accreditation from the Carbon Literacy Project upon successful completion of the course.

WHAT ARE PREVIOUS CLIENTS SAYING?

'Great course, content and trainers! Enjoyed the two days very much and looking forward to work with you in the future.'

John - **consistency**

'The training helps strengthen your knowledge and understanding of the consequences of global warming. I found it very interesting, and enjoyed the interactive content, which helped embed the learning. Overall, I found the material straightforward and easy to navigate and complete.'

Charlotte - **nationalgrid**

HOW DO I GET INVOLVED?

Get in touch with our team via email and we'll be in contact to discuss the best options for your business!
